

# Employer Attitudes & Motivations to Learning & Training Research (Employer Panel Consultation) Wave 18

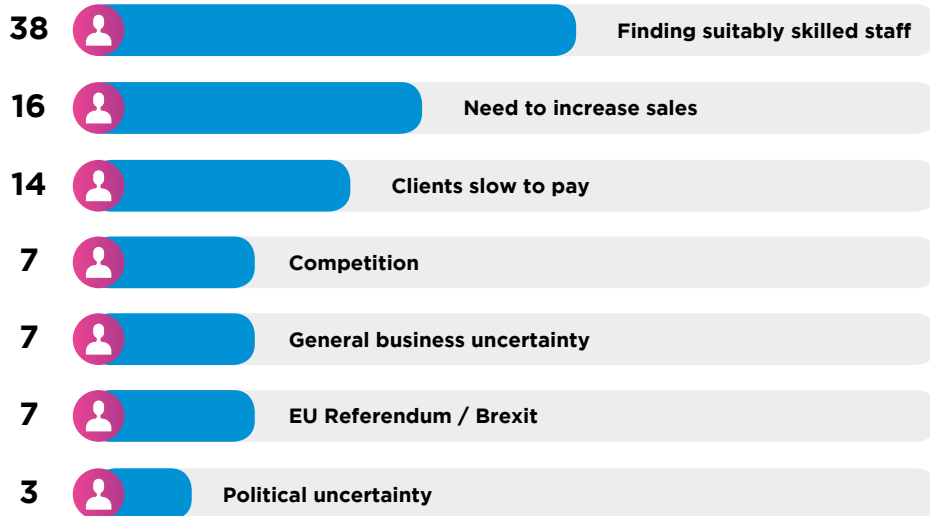

CITB NI carries out a regular programme of employer research to provide up-to-date intelligence and the evidence needed to underpin policy making and strategic decisions.

The EPC research aims to provide a regular programme of employer consultation (1,800 employers across the UK), allowing a reality check for anecdotal reports and enabling employer reactions to be gained on 'hot topics' of the moment. A particular aim is to enhance the understanding of actual behavioural issues influencing the decision(s) to train, the route(s) taken, and the method(s) used.
